<http://www.otownwindows.com> Pure Water Technology Our water technology system is the best in the business. Through a method of de-ionization, ordinary tap water is turned into 99.99% pure water (removing metals, salts and other impurities). Water this pure is an amazingly aggressive and perfectly safe cleaning agent. Most people don't know that it's the impurities in water that lead to spots on glass. Pure water technology guarantees spot free, residue free, sparklingly clear windows and dirt-free frames.
